Complaint Description

I have been a FiberMax 300 customer for two years and my monthly charge has always been Rs. 1,199. My August 2026 invoice (INV-2026-08-44812) shows Rs. 2,398, which is exactly double. The invoice lists the same plan twice with identical dates. I did not add any new service or upgrade. The full amount was auto-debited from my bank account on 28 August.

I would like the duplicate charge of Rs. 1,199 refunded and an assurance that this will not happen again next month.

Resolution

05 Sep 2026 - Billing team confirmed a duplicate plan line caused by a system migration error. A refund of Rs. 1,199 was processed to the customer's original payment method (refund ref RF-77120) and a corrected invoice was issued. Customer confirmed receipt of the refund by email on 08 Sep 2026 and was satisfied with the outcome.

Escalation

Not required. Resolved at first level.
