Product	BrightWave NovaBook 14 Laptop (16GB / 512GB), Serial NB14-7Q2X-5531

Customer Message

Subject: Defective NovaBook 14 - second failure, I want this escalated

Dear BrightWave team,

I bought the NovaBook 14 on 18 August 2026. Within ten days the screen started flickering and the laptop shuts down randomly even at 80% battery. I raised ticket BW-TKT-55120 and your service centre replaced the motherboard on 01 September. Since then the same problem has returned and now the keyboard backlight also fails.

This is a brand new laptop and I rely on it for work. I have attached photos and a short video of the flickering screen. I do not want another repair. I am asking for a full replacement or refund, and I want this complaint escalated to a manager because the first-level support has not solved it. If I do not hear back within 48 hours I will approach the consumer forum.

Regards,
Sneha Kulkarni

Agent Notes

11 Sep 2026 - Customer contacted. Replacement request is outside first-level authority. No resolution offered yet; awaiting product quality team review.

Attachments

3 photos of flickering display (IMG_2041.jpg, IMG_2042.jpg, IMG_2043.jpg), 1 video clip, copy of purchase invoice

Case Status

Open - unresolved. Customer requested escalation to manager.
