Customer Message

Hello,

I returned the SoundPod Pro earbuds on 05 August 2026 because the left earbud would not charge. Your courier picked them up (return AWB RT-3321087) and I received an email on 09 August confirming the return was received and inspected at your warehouse. I was told the refund of Rs. 7,499 would reach my card within 7 working days.

It has now been more than five weeks and I have not received any money. I have written to you four times and each time I get a copy-paste reply asking me to wait. Nobody has given me a transaction reference. I have attached the return pickup receipt and your own return confirmation email.

Please escalate this to someone senior who can actually release my refund. Please reply by email only.

Kavita Singh
